

Why not GO and bring our half-day *Vibrant Faith @ Work Seminar*® to your church and community?

Drew Crandall has spoken across the Northeast over 2,000 times. Please consider booking him for your upcoming event.

This 3-hour, 3-session seminar is a great way to encourage and equip working local Christ-followers (teens, men and women) on a Saturday morning or afternoon.

Session #1: **Unpacking the Cultural Landscape @ Work**

We begin the seminar with a panoramic cultural reality check from 30,000 feet. Most believers go to work each day in an environment that does not share their Judeo-Christian worldview. How did we get here, and how does the cultural landscape influence our perspective and expectations?

Session #2: **Walking Circumspectly @ Work**

Most Christians don't know their religious freedom rights at work. During this session, we present a general overview of legal religious and free speech rights in the workplace, with practical tips on do's and don'ts at work.

Session #3: **Being Christlike @ Work**

Now better equipped to grasp the cultural landscape and legal rights at work, attendees will be inspired, encouraged and challenged to GO and live out that their vocational calling in the love, power and wisdom of the Lord.
